

Windstream achieved 500% year-over-year qualified lead growth using Priority Engine

Generating Qualified Leads for Sales

“The main feedback I hear from sales on Priority Engine leads is that they want more, especially because of all the data that comes with them. They’re a lot more confident getting on the phone with these leads compared to cold calling.”

Surpassing Challenging Lead Generation Goals

“If I didn’t have Priority Engine running this year, I don’t know if we would have hit our lead goal. We targeted an aggressive lead number and exceeded it. It was Priority Engine that helped put us over the mark.”

Enable Your Team with Data they Need to Close

“If you’re ready to take sales and marketing to the next level, Priority Engine is one thing you definitely need to have as part of your stack. It gives sales everything they need to be able to close a deal.”
